PROFILE SUMMARY

Energetic and detail-oriented Full Stack Developer with a strong foundation in both frontend and backend technologies. Passionate about solving real-world problems through clean, scalable code and delivering seamless user experiences. Adept at working in cross-functional teams and constantly eager to learn emerging technologies.

EDUCATION

- 2022 - 2025
JIMMA UNIVERSITY, ETHIOPIA
- BSc in Computer Science

WORK EXPERIENCE

- Full Stack Developer Intern** JUN 2024 - AUG 2024
Debbal Technologies & Mizan Technologies, Ethiopia
- Developed a real-time chat platform using Socket.io, Node.js, and React.
 - Created a fully-featured School Management System with dashboards, attendance, grading, and user roles.
 - Built a responsive Amazon product page clone to sharpen UI/UX skills.
 - Co-developed SmartTrack, a national traceability system for Ethiopia's pharmaceutical supply chain using QR codes, secure syncing, and offline support.
 - Used MongoDB, MySQL, Postman, and Git for backend development, testing, and deployment.

SKILLS

Technical Skills

- Frontend: React.js, Bootstrap, Handlebars
- Backend: Node.js, Express.js, MySQL, MongoDB
- Tools: Git, Postman, VS Code
- Testing: Unit Testing, API Testing

PROJECTS

- SmartTrack Medication Traceability System** 2024 - 2025
- A web and mobile platform designed to combat counterfeit drugs by enabling end-to-end traceability of pharmaceuticals.
 - Built with QR serialization, real-time inventory tracking, and secure syncing.
 - Web interface for manufacturers, pharmacies, and regulators; mobile app for consumers.
 - Enabled offline support for rural accessibility.
 - Tech Used: React, Node.js, MongoDB, Express.js, REST API

- School Management System** 2023 - 2025
A full-stack application for managing academic institutions.

- Supports Admin/Teacher/Student logins, dashboards, class schedules, attendance tracking, and grade reports.
- Dynamic front-end with React, secure REST API backend.
- Responsive UI and data export functionality.
- Enables centralized management of school data.
- Tech: React, Node.js, MySQL, Bootstrap, JWT

LANGUAGES

- English: Fluent
- Amharic: Native
